The agenda for CS314 lecture #17 (March 16, 2023):

1. Attendance cards

2. Project #2:
   
   Suggested semaphore structures for “Reader Process Rx” and “Writer Process Wx”
   
   - Without limiting the concurrent readers up to 3 readers (15 points for your implementation)
   - Without a protection against “writer starvations” (15 points for your implementation)

3. Midterm exam discussions
   
   - QUESTION #3
   - QUESTION #4
   - QUESTION #5

4. New topic: “threads” (if time permits)
