Questions:

(1) Assume that you select “OK” (instead of “Cancel”) in the following window, which security risk is possible (select all that apply from the following options) – as the possible consequence(s) of selecting “OK”?

   (a) Replay
   
   (b) Modification of message contents (AKA, “MIM”)
   
   (c) Masquerade
   
   (d) Release of message contents
   
   (e) Traffic analysis

(2) For each option you select above, explain “how (how a particular risk can occur)”.
